SUMMARY

Backend Developer with 1 year 4 months experience in Java, Spring Boot, Microservices, and REST APIs. Proven ability in scalable system design, database optimization (MySQL), and cloud (AWS), seeking challenging backend roles.

SKILLS

- ❖ **Programming Languages:** JAVA, JavaScript
- ❖ **Backend:** Spring Boot, Hibernate JPA, Microservices, REST APIs, WebSocket, JDBC
- ❖ **Databases:** MySQL
- ❖ **Cloud & Tools:** AWS, Git, Postman, Swagger, IntelliJ IDEA, Eclipse, GitHub
- ❖ **Additional:** System Design, Angular, Payment Gateway Integration..

EDUCATION

- ❖ B.Tech CSE | SAGE University, Indore | CGPA: 8.48 | August 2023
- ❖ Java Full Stack Development Course | Java By Kiran, Pune | Sep 2023 - Feb 2024

EXPERIENCE

Backend Developer | SoftLink Technology Pune

- **Developed & optimized** scalable **REST APIs** for **AgroPanch** and **E-commerce platforms** (user, product, order modules) using **Java, Spring Boot, Hibernate, & Microservices**.
- **Implemented WebSocket** features, **integrated payment gateways**, and **optimized MySQL** schemas/queries for high-performance backend systems.
- **Collaborated** cross-functionally on **API contracts & design**; leveraged **Git, Postman, & Swagger** for streamlined workflows, **code quality**, & documentation.
- **Applied SDLC** best practices: **debugged, API tested, & reviewed code** for Java Spring Boot applications (Sep 2024 – Feb 2025).
- **Developed** foundational **backend skills** (SQL, API integration, Git); **supported** testing & documentation during internship (Apr 2024 – Aug 2024).

HOBBIES

- Exploring new technologies that enhance productivity and optimize workflows.
